

Letter of Referral for Lydia Turiano

Lydia Turiano saved the day last week at RocCon! Our venue had a new digital sign and needed artwork to put the convention up on the new marquee. No one on staff (as far as I knew) had the right kind of experience. Until Lydia stepped forward.

Within 90 minutes, Lydia designed a wonderful piece of art, to perfect specs for display on the marquee. Lydia immediately understood what was needed and delivered big time!

Her actual function at the show? Due to her grace and personality, Lydia actually gets to work in VIP Row working this year with such famous stars from TV and film including Glenn Morshower, Burt Ward (Batman), Carey S. Means, Nana Visitor (Star Trek), Jeremy Bulloch (Star Wars) and others. I do not assign those positions to just anyone. Lydia has what it takes to work with people who can run the gamut from really friendly and kind to as stuck up as can be and not nice to anyone.

I highly recommend her for whatever position she has applied for.

Best regards,

Alicia D. Lurye, Organizer

RocCon! Rochester's Comic Con & Pop Culture Convention Since 2010
